EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John W. Bailey on November 28, 2005.

2. The application has been amended as follows:

- 2.1. In claim 1:

- a) line 22 (4th line from last), "5" has been replaced with --10--

- (support is found on page 17, line 14)

- b) line 24 (2nd line from last), "10%" has been replaced with --5%--

- (support is found on page 28, line 9).

- 2.2. In claim 2:

- a) line 5, "5" has been replaced with --10--

- b) line 20 (last line), "10%" has been replaced with --5%--.

STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The claims in their present amended forms have overcome the prior art of record because none of them teaches, discloses or suggests a solid-shaped detergent comprising particles as

those recited. The present claims now require base particles having a localized structure in which larger amounts of the water-soluble polymer and the water-soluble salt are present near the surface of the base particle and which localized structure is not taught by Davies, one of the close prior art because Davies teaches spraying of the base powder with only the water soluble polymer, that is, polyethylene glycol. The present claims also now require a minimum of 10% by weight of a water-soluble salt, which is outside the scope of the water-soluble salt, that is, 0.05 to 5 wt% sodium silicate (see abstract, col. 1, line 63, col. 3, line 8) of Seiter, another close prior art. The water content, as presently amended, now requires 5% by weight or less, which proportion is outside the scope of the water content in each of Seiter and Fry, the other close prior art of record. Accordingly, the subject matter, as a whole, would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
